## Installation Information & Authorization Form

Customer Name: \_\_\_\_\_ Phone # \_\_\_\_\_

Service Address: \_\_\_\_\_ Service Order # \_\_\_\_\_

Congratulations on your new KPU services! To ensure a smooth and timely installation please make sure that:

- All TVs and computers are in your home at the time of the installation, and easily available to the technician.
- All outlets are accessible, or you know where you want them installed.
- Someone 18 years or older will be present for the duration of the installation.
- Television sets and/or entertainment centers are at least three feet away from the wall.
- Indoor and outdoor access is available; be sure all gates, fences, and doors are unlocked.
- Please secure all pets while our technician is at your location.

Please point out any personal property our technician needs to be aware of to prevent unnecessary damage such as underground electrical fence, underground sprinkler system, septic tank, trees/landscaping, and concrete/asphalt driveway (if cable needs to be buried underneath).

Installation of KPU services may involve modifications to the residence. While these modifications are often minor, a standard installation may include: drilling holes in order to run cables, attaching equipment to the outside of the building, power modifications, and mast or conduit installation. If you are not the owner of the building, you should carefully review your lease agreement to determine if you have the right to make such modifications; you are required to obtain any landlord approval necessary for your installation. By signing the form below, you are granting KPU permission to install your new services, and are releasing KPU from any liability related to damages your landlord may claim as a result of a violation of your lease / rental agreement, as it relates to the installation of your KPU services.

I, \_\_\_\_\_ (Landlord / Owner / Authorized agent) understand the above requirements and terms, and grant permission for KPU services to be installed at the service address listed above.
